	Well handled cattle that were generally well mannnered during assessment. The odd heifer became agitated in the crush and the odd one would turn back in the forcing yard.		
Handled With	Bikes		
Assessor Comments	A very good quality line of Angus heifers in forward condition. They are well grown and show plenty of bone and shape, and should continue to develop into large framed females. This line represents 50% of the 2025 heifer drop, with a lead retained on farm and a tail removed resulting in a nice even line of heifers. Perfect article to background or feed, but would ideally suit as replacement heifers to take on as breeders.
