Vendor Bred

No

Vendor has owned stock for 6-12 months

Stock History

Purchased locally off a breeder, when the breeder dispersed his entire beef herd in August 2025.

Lifetime Traceable

Unknown

Breeding Comments

Violet Hills Blood Charolais Bulls used over Angus Cows.

Grazing Conditions

Rotational grazing on rye & clover

Returned same

Burr/Seed in Coat

No Burr or Seed of weeds declared noxious observed in the coats at assessment

HGP Status

The owner declares that the cattle have not been treated with HGP at any period of their lives

Health Treatments

Drenched

25/07/2026

Ivomec Plus

Vendor Comments

A lovely line of Charolais x Angus Steers that had a tough start to life but were purchased as 100kg calves last Spring. Have had it pretty good since purchase.

| Assessor Comments                     | A lovely line of creamy steers with plenty of bone and bone structure. Will suit to either grow out to bulls or background for a feedlot job.                                                                                                                                                                                                                                                  |                                           |                                           |
