Assessor Comments	The Kelly family have been breeding Angus cattle for a lifetime using Rennylea Genetics for the past 30 years. These cattle present in strong store condition. They would suit the buyer looking to grow into feedlot, trade or export markets. These cattle have had repeat buyers in the past. All cattle will have lice, some showing more signs than others. Lice drench was not applied as we did not want to eliminate any potential buyer because of the with holding period. Grassfed antibiotic free.
