Assessor Comments	60 Aug/Sep 25 drop Angus steers. They have been running with mum up til monday 3rd Aug, where they were yard weaned then assess on tuesday the 4th. As you can imagine they had a bit of run in them at assessment though all stood on the portable scales without too many issues. They will stay in the yards on water and hay til delivery, so they will hollow out, get muddy and lose their bellow. The herd orginally started on Banquet cows though others have been purchased in since, and Bulls are sourced from Bushy Park Angus. They will be drenched and vaccinated with 5in1 before delivery.
