Assessor Comments	A quality line of well grown EU accredited Angus weaners heifers presenting in a forward store condition. Showing good breed purity, depth of body and structure soundness, these heifers are appropriate to either go straight into a feeder program or be backgrounded to heavier export weights. Health treatments such as a first and second dose of UltraVac 5 in 1 and a Dectomax Pour On at weaning will give buyers confidence on continued uninterrupted growth given the right nutrition. Several cattle are showing signs of rubbing on the neck and shoulder(as pictured), with associated hair loss and skin thickening evident. Please note the vendor also has a sibling line of 45 steers in the same sale available.
