Excellent	100%

Assessor Comments	Cloven Hills sires have led the Australian maternal sires in recent years and are one of the key studs that underpin maternal genetics in Australia. Cloven Hills ewes are bred from a Coopworth base (fertility & hardiness) with 40% = terminal predominately White Suffolk & Poll Dorset's (growth & carcass); with an infusion of high ranked NZ Tefroms that have high fertility and growth, but moderate adult weight. Moderate adult weight with high early growth is a key focus at Cloven Hills. Heavy selection pressure on physical (black feet & type) and measured traits, selecting ewes that hold their condition score in tough conditions. The tops of the Cloven Hills commercial ewes with leading maternal genetics for prime lamb production. Bid confidently knowing you are buying some of the best genetics on offer, with 85% of ewe lambs out of ex-stud ewes. Ewes are eligible to all states. There are 460 ewes in this line to be sold as 2 x 230 on a run out the gate delivery.
