Assessor Comments	Due to the family farm being leased, the rare opportunity to purchase a magnificent run of Primeline ewe lambs has become available. These are the total run of classed ewe lambs that would have been retained in breeding program if not for farm being leased. The Miller family has been using Lambpro genetics for the last 17 years with a major emphasis on fertility, weaning weights and positive meat traits. The improvement and quality of their sheep can be seen in the presentation of these ewe lambs. Ewe lambs are an April/May drop and have been shorn in late September. The Miller family have been renowned for selling high-quality fat lambs for many years with the progeny of these ewes generally sold as suckers to local domestic abattoir, Breakout River Meats or grown into export and heavy export lambs. The body of these ewe lambs at their age demonstrates the quality of their breeding and their suitability for a range of fat lamb operations. Please note these ewes are Lambpro Certified, and their progeny would be Willowbend Eligible, for Lambpro members These ewe lambs are NSM, ready to join to the rams of your choice and should produce a power of lambs going forward
Assessor	**Adam Chudleigh (Level 1 Accredited)** Phone: 0459 533 166
