Assessor Comments	33 Angus x Steers, Mosquito Creek and Texas Bloodlines, Steers averaged 326kgs (curfew weight at assessment), Steers present in store / forward store condition and are currently powering ahead on oats. These steers where bred in the west and would generally be carried through to reach feeder weights. Please note 2 steers have a very slight old pink eye scar which doesn't seem to be detrimental. Buyers please note vendor has a line of heifers in the same sale.
