| Notable Traits                | Traits<br>1 Head Photosynthesis from pasture/ St Johns Wart on nose. Skin inflamed/ peeling like sunburn                                                                                                                                                                                                                                                                                       |                                           |                                     |
| Assessor Comments             | A nice line of weaned heifers that have gotten over their weaning and are bouncing ahead now on fresh feed. The hard work has been done and a great opportunity to purchase light weight/ low dollar cattle for margin making.                                                                                                                                                                 |                                           |                                     |
