Assessor Comments	A rare opportunity presents to secure classed in Aug/Sept 2025 vendor-bred Lawson Certified Angus heifers, normally retained as breeders. They present in forward store condition with excellent depth, frame, and conformation. Sired by high-indexing Lawson Angus bulls, carefully selected for low birth weight, calving ease, short gestation, moderated mature cow weight, and high IMF (Av 3.9) these heifers are renowned for performance and predictability. They were all vaccinated with (Bovishield MH- One) at assessment. Managed in large mobs under rotational grazing, exceptionally quite, they are an ideal option for a producer looking to expand or establish a quality breeding herd. 4 hd had a small blemish in the eye and 1 hd had small warts on the neck, not detrimental.
