Assessor Comments	A good line of 44 x Sep/ Oct 2025 Drop NSM Bongongo & Hazeldean Blood Angus Heifers. The heifers present evenly as a group, they exhibit plenty of frame for their weight and will perform very well if given the opportunity, capable of reaching joinable weights in the spring. This group of heifers have experienced a tight autumn and cold winter; they have performed well given the conditions. The heifers in this group were classed on frame, weight, coat quality and overall type. The heifers will grow into medium to large frame cows. Birroon selects sires for growth, fertility and structural soundness. This group of heifers responds favourably to calm handling in the yards and presented well for photos and assessment. Grassfed eligible for buyers looking to secure heifers for kill markets later on. Birroon will offer 22 x heifers of lighter weights in today's sale.
