Assessor Comments	Heifers that were bred at Cooplacurra Station @ Nowendoc that have all had a calf and did it tough while doing it. Heifers were preg tested empty in mid july but please note there was a angus bull in for 3 days after they were preg tested so would be a good idea to PG on delivery. Heifers ideal to feed and would jump out of there skins give the right opportunity. There is the odd heifer with a blue eye.
