Notable Traits	Traits 1 Head Pink eye scarring or light blemish		
Assessor Comments	Good to better quality line of young angus females. Heifers are well grown and display good temperament. Tywnam blood with many of this group parent verified through their breeding program. Heifers come from a very good herd of females and would make a nice line of future breeders if required. Alternatively, would grow out nicely to heavier weights with the frame they show. They stand in fresh store to mainly forward store condition. Heifers will continue to improve if shown the same good management. Note the lighter end of this drop are likely late sept/oct drop hence the spread in weight. Please note vendor also offering 2 lots of composite females in the same sale. For further information please call.
