Assessor Comments	A very good quality line of vendor-bred Angus × Angus steers, displaying excellent frame and quality to take forward through the spring. The steers handled well during assessment, with all steers individually weighed 270 kg+ full at assessment. Steers are well renowned in both grass and feedlot programs for many years. They are bred out of Dunoon and Glenruben cows with recent infusion of Hazeldean genetics. Please note that 28 steers are August/September 2025 drop, with the balance being May/June 2025 drop. The vendor will also be offering 12 Black Baldy steers in the same sale. For further information, please call.
