Assessor Comments	A quality line of 26 pure Reiland Angus blood heifers, offered as surplus to requirements. These heifers have not been station mated and represent an excellent opportunity for purchasers looking for future breeding females. The Baker family has been purchasing Reiland Angus bulls for more than 40 years, with these females displaying the same desirable attributes of great length, stretch and phenotype. At 12–13 months of age, these angus females have the genetics, structure and type to add value to any program.
