	Quiet: 84 head	Quiet: 84 head	Temperament not assessed in Paddock
Handled With	Very quiet young steers. All bucket reared, extensively handled. Very quiet to deal with in the yards, push them around by hand. All led up the race well, bar the odd steer that turned around in the race. Quiet to walk amongst in the large yards for photos. Quiet, well weaned steers that could be handled by a stock person of any experience. Bikes , On foot , Vehicles		
Notable Traits	Traits 3 Head Belgium Blue x 5 Head Black and White Markings 2 Head Minor eye blemish (none greater than a 5c piece sized white dot) 2 Head Small amount of healing ringworm 4 Head Small Scurs		
Assessor Comments	Quality line of young, well started steers. All bred by the vendor, bucket reared for an extended period, weaned on to pellets, then brought over to the feedlot to be started on a grain ration. Had every animal health treatment thrown at them to give them the best start and are going ahead now and showing good daily weight gain. These Calves are throwing well to the attributes of the Angus, shaping up well with good depth of body and good length. An ideal line of steers to continue on a feed ration and target a domestic or export market. Buyers please Note. Vendor has another 2 lots in same sale.
