Assessor Comments

A great line of 63 Angus heifers, well bred by Pentire and Top Shelf sires. The heifers have been grown out on oats and rye and present in forward, fresh condition, with the recent warm and sunny weather powering forward. At assessment, a number of heifers were exhibiting signs of cycling, indicating they are ready to join, making them an excellent opportunity for buyers looking to add quality females to a breeding program. With their frame, condition and breeding, these heifers also offer excellent versatility as feeder heifers, A versatile line with strong end-use options across supermarket/trade, feeder and future breeder markets.
