| Assessor Comments      | Here we have a good line of predominantly Black weaner steers on offer ready for spring. These cattle are black in colour & have the highbred vigour from the Black Simmi giving you the best of both worlds. Young cattle this weight at the peak of spring are very hard to find & come highly recommended. Vendor has another 2 lots in the sale.                                           |                                           |                                        |
