Assessor Comments	Outstanding opportunity to put together a high-quality line of Rennylea Angus blood heifers from the highly regarded Hopewood herd. These heifers weighed 326kg full (289-365kg) with a tail end removed. The herd places particular emphasis on EMA, IMF & high growth rate to target the high-end Angus & F1 feeder market with the progeny being highly sort after by repeat buyers annually. Bred out of a herd of large frame cows that are heavily classed annually, these heifers would go on to become excellent future breeders or grow out to feeder or kill weights. Please note; vendor is also offering 23 heifers at their Wagga property to make a total of 99 heifers in today's sale.
