	These heifers are well-educated, quiet cattle that were excellent to handle. They have been tailed out at weaning using working dogs and horses and have been well handled throughout.		
Handled With	Bikes , Dogs , Horses		
Assessor Comments	An excellent line of Red Hicks Beef Composite Heifers. The Hillsboro herd has been based on pure Hicks Beef Genetics for the past 25 years, with the vendor consistently selecting high-indexing sires with a strong focus on growth, structure, temperament and fertility. These heifers represent the vendor's "tops of the drop" of their Red Composite Heifers, with none retained. As potential breeders, they tick all the boxes, offering the quality, structure, temperament and genetic credentials required to develop into highly productive females. Importantly, these cattle also have a proven history of performing exceptionally well on feed, making them equally suited to backgrounding or finishing programs. A quality line of heifers combining strong breeding potential with proven commercial performance.
