Assessor Comments	This is the top of the drop with the vendor not retaining any keeper heifers. A tail has been removed leaving an excellent line of heifers. They could go either way, breed or feed. Suitable to join this spring or ideal to feed/grow out to meet grassfed markets, these heifers are anti-biotic free and pasture reared making them eligible for grassfed programs. They are from large framed cows and currently thriving on good spring feed. The vendor uses Dunoon Angus bulls and the quality of the herd is evident in these heifers. NB: odd Heifer with warts.
