Assessor Comments	A high-quality Angus Rennylea Angus blood heifers from the highly regarded Hopewood herd. These heifers weighed 294kg full (265-309kg) with a small tail end removed. The herd places particular emphasis on EMA, IMF & high growth rate to target the high-end Angus & F1 feeder market with the progeny being highly sort after by repeat buyers annually. Bred out of a herd of large frame cows that are heavily classed annually, these heifers would go on to become excellent future breeders or grow out to feeder or kill weights. Please note; vendor also offering 76 heifers at their Jugiong property to make a total of 99 heifers in today's sale.
