	4 Head White markings underneath.			
Assessor Comments	Offering a load of Angus x Angus and Angus cross backgrounder heifers weighing 255-418kg 4 hours off feed at assessment 08/09. These heifers are acclimatised with all treatments up to date and are stacking the weight on. They are grazing on annual ryegrass based pastures with clover present with plenty of quality food on offer due to the soft winter. They were purchased in to graze excess winter feed and are being sold to make room for vendors breeders. They are recording positive daily weight gains over 1kg/hd/day and starting to lay fat cover. Ideal to background for strong feeder or kill markets with all of the preparation and expense behind them. Quality Angus heifers that are settled in their group and will remain as one until delivery.
