Assessor Comments	A great opportunity to purchase a complete drop of young vendor bred EU Angus cross heifers . These are all the vendors Baldy / Broken baldy heifers with a very small tail removed. Normally retained for joining, but now only keeping straight blacks to breed on with. These girls have a great genetic mix of predominately Rennylea Blood with some Dunoon Angus genetics used early in the herd. These heifers would be positive addition to any herd as future breeders. Heifers are a minimum of 4 generations straight Angus - all sired by Rennylea bulls. They are well grown , just starting to clean up in the coat and are in perfect joining condition. Vendors cattle are very well educated through the yards and crush, a pleasure to handle in every way.
