Assessor Comments	Glenarty Sheepmasters are run in one of the wettest parts of WA the handle the wet winter fine and are about to have large weight gain. They have been weaned two weeks and drenched. Glenarty have been breeding sheepmaster for 14 years and with Border Lester in the background from 14 years ago it gives them slightly more frame and better mothers and fertility. An ideal opportunity to bolster numbers or start a Sheepmaster flock. Glenarty sell a large percentage of their lambs through the Glenarty Rd award winning restaurant. So consequently they know the quality of carcass these ewes produce.
