Vendor Comments	Quality line of Hereford steers. Very happy with the performance and temperament of this group of calves. Calves are displaying terrific weight for age given the tough summer /autumn period

in general these steers handled well and with no problems during assessment . A few of the steers were slightly agitated in close quarters in the round yard and in the crush but settled quickly once back in the mob. Certainly no aggressive cattle at all.

Handled With	Bikes , Dogs , Vehicles
Assessor Comments	A quality line of very well bred Angus steers that have great bone, depth of body and muscle, they are very square cattle and present very even type as a group. These cattle handled well throughout the assessment process. The steers have been on high quality perennial ryegrass pasture and are really putting the weight on with the lead of the group doing over 2kg/day to average 1.5kg/day. High performing steers that will suit both the feeder market or would grow into very heavy bullocks given time and nutrition. Steers all had their first Bovillis MH + IBR vaccination at assessment.
