Assessor Comments	42 Angus steers on offer, 13 - 14 months old. Vendor has solely been focusing on Millah Murrah bloodlines the last few years now. His herd has a fixed time A.I program every year while joining and every thing gets blanket joined to Millah Murrah straws and then backed up with Millah Murrah Usain 150. Cows are predominately Coolana and Cheltenham Park bloodlines. Steers that are packed full of breeding. These steers are doing well with the spring feed and loosing there winter coats currently. Recieved a Multimin Evolution, B12 & Selenium and Cydectin drenched 14/8. These steers are well handled and perform well given the right opportunities. Moved through the yards and weighing without a drama. Please Note = Vendor has another lot of females similar amount with exactly the same breeding in the same sale.
