Assessor Comments

A class offering of 74 vendor bred Angus steers. Steers are very tightly weighted and present in principally forward store condition. They have received their 5-in-1 booster vaccination and are sired by Chiltern Park & Weeran Angus bulls, bred from a herd of Banquet, Barwidgee & Weeran blood cows. They were very good to handle. The Winnidad operation selects genetics on structure, above average growth, above 2.0 for IMF and positive fat. They display very good weight for age. The Winnidad herd are noted performance cattle that have performed well for previous purchasers. NEE eligible, steers have the breeding & capacity to finish on grass or grain to trade or export weights. An excellent draft of steers.
