Assessor Comments	Very good quality Droughtmaster & D/M cross cows continually running with top Rondel Droughtmaster bulls. PTIC 15 x 5 months or greater & 7 x 5 months or less in calf. The temperament and maternal capacity of these cows is noted - they keep on bringing a calf in each year. Ideal cows to purchase along side with the 50 x 54 also offered in the same sale to calve out knowing the progeny are heavily influenced by the top Rondel Droughtmaster genetics & the cows have good frame to fatten into a heavy weight cow on good feed. As mentioned in the cow & calf assessment the PTIC cows may have had exposure to a Braford bull whilst away on agistment however whilst he was not seen in the mob - there are 14 Braford x calves in the cows and calves.
