Assessor Comments	Buyers on offer are 44 PTIC cows predominately Simmental, Brahman composite X cows all PTIC to the York Simmental bulls. This is your chance to secure 44 good quality future breeders to calve out and put back to a bull of your choice. Majority of the cows are from 4 to 7 year old so plenty of breeding left in them. Cows show good femine characteristics and show plenty of bone and shape. Please note at time of assessment buffalo fly was present on cattle with 2 cows showing rub on neck. 38 cows are 4 months plus with leaving only 6 cows under 4 months at time of preg test, (certificate available). Vendor also has 96 x 96 cows and calves in same sale. Only selling due to property being sold these cattle are genuine breeders and not to be missed.
