Assessor Comments	Buyers today we have to offer 30 mixed aged Cows, predominately older, all PTIC to well bred Charolais and Ultra Black Bulls. The Cows are of mixed breeds and are in strong forward store condition. These cattle were preg-tested to calve between October up until January 2022. All the Cows have been part of a rotational grazing program which requires them to be moved daily. They are all handled with Low Stress Stock Handling Practices and are trained to a single wire electric fence. This is an opportunity to secure quick trade stock or hold on to suitable breeders. On assessment it was noted that 1 Cow had knocked hip and a few Cows showed signs of buffalo fly bite. Vendor has 3 other lots in the same sale, and 2 in the weaner/yearling sale. Please note these cattle are located in a tick area and will require clearing prior to moving across the tick free line. This will be at the purchasers expense. The Vendor has pretreated to help this process.
