Assessor Comments	Buyers today we have to offer 34 mixed aged Cows, predominately older all PTIC to well bred Charolais and Ultra Black Bulls. The Cows are of mixed breeds and are in strong forward store condition. These cattle were preg-tested to calve between end of July up until October. All the Cows have been part of a rotationally grazing program which requires them to be moved daily. They are all handled with Low Stress Stock Handling Practices and are trained to a single wire electric fence. This is an opportunity to secure quick trade stock or hold on to suitable breeders. Please note that 1 Cow had knocked hip, 1 missing brush of its tail, 1 missing half of its tail, 1 had a lump from old injection site & some fly bite. Vendor has 3 other lots and 2 in the weaner/yearling sale. Please note these cattle are located in a tick area and will require clearing prior to moving across the tick free line. This will be at the purchasers expense. The Vendor has pretreated to help this process.
