Assessor Comments	Attention all buyers today we have to offer 31 mixed bred, PTIC Heifers. These Heifers are very well bred and extremely well grown. They are showing fantastic frame and shape for their age. The Heifers were preg-tested to calve between October through to January 2022. They had a great average of 463kg on delivery and ranged between 421kg to 564kg. All the Heifers have been part of a rotational grazing program which requires them to be moved daily. They are all handled with Low Stress Stock Handling Practices and are trained to a single wire electric fence. This is an opportunity to secure 31 breeders with the rest of their life in front of them. Heifers did show some minor fly bite. Vendor has 3 other lots in the same sale, and 2 in the weaner/yearling sale. Please note these cattle are located in a tick area and will require clearing prior to moving across the tick free line. This will be at the purchasers expense. The Vendor has pretreated to help this process.
