Assessor Comments	Attention all restockers we have here today for you 58 preg-tested in calf Heifers. This is a genuine run of genuine first calf Heifers. These Heifers are extremely quiet, very well handled and will make excellent future breeders. All the Heifers are showing fantastic frame and have growth for their age. They averaged 482kg on delivery and ranged from 432kg to 608kg. All the Heifers have been part of a rotational grazing program which requires them to be moved daily. They are all handled with Low Stress Stock Handling Practices and are trained to a single wire electric fence. Heifers showed some minor fly bite. Vendor has 3 other lots in the same sale, and 2 in the weaner/yearling sale. Please note these cattle are located in a tick area and will require clearing prior to moving across the tick free line. This will be at the purchasers expense. The Vendor has pretreated to help this process.
