Assessor Comments	Quality cows that are a credit to Buttabone Station, Paraway Past. Co. Angus bull selection criteria at Buttabone included the following : Heavy Grain Index >149 Calving ease direct > 0.4 Birth weight < 6.3, 600 day weight >125 IMF >2.7. Ideal replacements for herd building or a great base to start from. Paraway Buttabone progeny are sort after by numerous top end feedlot operators on an annual basis. This line of cows will all calve within a 3 week window from early Sept. Please note odd cow noticed with white forward of udder. Very odd slightly cloudy eye, old pink eye scarring. Not considered to be impeding performance.
