	Heifers handled well in yards, odd heifer stirred in crush or when confined. Cattle have been handled exceptionally well with capable stock men on horses using dogs. All cattle go through a program of induction which includes education of electric fences, dogs and horses for approximately a weeks time.		
Handled With	Dogs , Horses , On foot , Vehicles		
Assessor Comments	A nice line of Angus heifers providing well for their young calves. Heifers present in a store condition and have the ability, if given the chance to grow out into nice cows for the future. Calves are 2- 6 weeks of age and are growing nicely, Heifers calved with ease and unassisted as they were joined to LBW Angus sires. Heifers handled well at assessment and are good quite units with all the hardwork of calving down future breeders already done, this line of heifers and calves offer a excellent opportunity for the incoming purchaser and are not rejoined. 2 heifers had old blue eye scaring not deemed detrimental as breeder. 2 heifers with white on udder. 1 calf presented with a pink eye.
