The heifers were run in on foot at assessment out of a small holding paddock, and assessed immediately. They were quick to take gates that were opened for them, and happy to exit the crush, they were however quite well behaved in the race, so maybe just unsettled by strangers. As seen in the video they move immediately when you approach, however there is no reason they could not be educated if handled more often.

Handled With	Bikes , Vehicles
Assessor Comments	A small lot of medium to large heifers, preg tested up to a Bald Blair background bull. Healthy and well grown with a cross in their background, they should grow to be productive females. One heifer was seen to have some white underneath, and another with a white tip to her tail.
