	Cows that are out in the paddock to do a job and not regularly brought in to the yards, Well behaved, especially considering this. All females were very easy to handle throughout assessment. Yards are only small and females are in close proximity to the handler at all times. Not too fazed by this, very easy girls to manage.		
Handled With	Bikes , On foot , Vehicles		
Assessor Comments	Nice females in their working clothes with a clean tidy bag underneath them. Cows haven't been getting spoilt & recently had a weaner pulled off them that averaged a bit over 300kg at 7 months off age. Cows have recently developed a Winter coat, but you can see they have a very nice style about them underneath with good length, depth & a kind temperament to match. Ideal females to take on and add to an existing operation, or quiet enough for a hobby farmer or smaller scale operation. Very odd white splash on flank/udder, 2 spotted. Please see photos & video for full contentment.
