	Quiet easy to handle cows in the yards, they move off pressure quickly in the paddock. Please note they were temperament assessed with baby calves at foot.		
Handled With	Bikes , On foot , Vehicles		
Assessor Comments	Genuine herd dispersal of classed in cows and calves. 20x20 Angus Cows & Calves, cow herd selected for maternal strength, structural integrity & high growth, 3-8 years old, 520-716kg Ave 617kg. Exceptional program of predominantly Angus blood cows, calves by Hazelwood Angus bulls. These cows are showing plenty of milk, doing an outstanding job on their calves which offer a quick return on your investment. All cows 7in1 & drenched with Eprinex 15/11/20. Impressive line of maternal, productive cows, they will be an asset to any enterprise. These are the last 20x20 cow and calf units out of a complete dispersal of 130 head only held back as the calves were too small at prior assessment.
