Assessor Comments	Watervalley bred 32 seconds draft of mixed age cows PTIC 5-8 months to Watervalley black bulls. The cows are principally black having various white markings from their crosses and approx 10% would have some Bos indicus influence. This second draft being in store conditio, they are lighter condition and frame size than the 54 tops, (buyers can put both lines together from this PTIC group to make an even drop of calves) cows had their calves weaned off only 4-6 weeks ago. This line represents an opportunity to put weight and condition on the cows prior to calving. The Watervalley cattle are well known for their doing ability and are ideal to turn out to calve down, the cattle will perform well for those buyers looking for great doing mums and to add value to their purchases.
