22	200.1 -220.0	417-458	0%	4%	4%
Totals			49%	51%	100%

Comment on Fat Score 1 Cattle	Heifers are fresh and healthy. Moving forward on a rising plane on nutrition and would handle long distance trucking with no concerns. Recommend a spell every 1000km. May require dipping at Julia Creek if crossing the tick line, therefor would require a spell the same day then onwards the following day recommended.
-------------------------------	--

Vendor Bred	No
	Vendor has owned stock for 6-12 months
Stock History	80% vendor Bred & 20% of purchased heifers in from local operations. Purchased heifers direct from Northern QLD breeder herds as weaners.
Lifetime Traceable Bloodlines	20% are from non vendor bred properties and entire lifetime traceability may be compromised
	Vendor bred heifers have Brahman Lancefield and Quality Glenlands droughtmaster Sires. Out of a majority brahman base cow herd.

Grazing Conditions	A good stand of dry Mitchell, Buffel & Flinders grasses. On open rolling black soil downs country. Returned same
--------------------	--

Burr/Seed in Coat	No Burr or Seed of weeds declared noxious observed in the coats at assessment
-------------------	---

HGP Status	The owner declares that the cattle have not been treated with HGP at any period of their lives							
Health Treatments	Vaccinated		01/09/2020		Sinvac 1 yr			
Chemical Residue	Nil							
J-BAS Score	6							
Vendor Comments	Sale only due to excess numbers of PTIC HEIFERS that will perform for any prospective purchaser. These Heifers are in a tight calving window from 2-4 months Weaner trained and tailed. Sale due only to make room for weaners.							
Joining Details	Station Mated bulls put in: 10/01/2021 bulls taken out: 25/04/2021 (106 days) Bull Breed(s): Brahman, Angus, Red Angus, Droughtmaster To the vendors best knowledge, this lot has had no access to bulls or stags aside from stated joining period.							
Preg Tested?	Yes, this lot was pregnancy tested, by Dr Ian Braithwaite (Vet) on 25/04/2021. 104 Head (100%) PTIC, from 2 to 4 months (at time of assessment). Certificate Available.							
Other Joining Details	Heifers preg tested in calf. Exposed to 66% droughtmaster, 11% brahman, 1% Senagus, 22% Angus cross, 4% Brangus BULLS.							
	Frame		Quality Grades		Store Condition		Muscle Score	
	Large	30%	Very Good	17%	Fwd Store	70%	C	85%
	Medium	65%	Good	78%	Store	30%	D	15%
	Small	5%	Fair	5%				
Temperament	Yards		Crush		Paddock			
	Quiet: 50 head		Quiet: 50 head		Temperament not assessed in			
	Slightly Stirry: 48 head		Slightly Stirry: 44 head		Paddock			
	Stirry: 6 head		Stirry: 6 head					
	Heifers are good to fair to handle, over scales where generally quiet. In the head bale when caught the majority showed some anxiety, no doubt created from pregnancy testing the last time heifers where in the yard. Outside the yards genuinely quiet and well educated heifers that handled well. Heifers where generally settled in the yards after processing in overhead race. Not pound drafted.							
Handled With	Aerial (Helicopters, gyro's and planes) , Bikes , Vehicles							
Assessor Comments	An even line of RED Quality PTIC 2-4 months heifers. They display good bone , length and confirmation. 80% vendor bred and 20% purchased of similar quality. Heifers were PTIC By vet in April. Majority good to handle with a fair temperament In general. Mob where agitated in yards due to numerous handlings proir to assessment with preg test. Approximately under 40% display hump. These heifers present an opportunity to secure a line of vendors replacement heifers that are surplus to requirements. Colours include 100% red and honey with odd red brindle. Joined to Majority Droughtmaster and angus X bulls, only 11% of bulls joined to are brahman.							
Assessor	Luke Westaway (Level 1 Accredited) Phone: 0413 408 953
