	These heifers were purchased as weaners last year. They were tailed with horses and dogs. The heifers are good to handle in the paddock and can be mustered by one person with dogs. These heifers when handled through the yards were a bit fast but not aggressive.							
Handled With	Aerial (Helicopters, gyro's and planes) , Bikes , Dogs , Horses , On foot							
Assessor Comments	Very good future breeders, these heifers were drafted out of a larger mob to be future breeders. 80% of these heifers are naturally polled while the balance are well dehorned . Predominantly bred from Avoca at Alpha and Tilpal at Kunawarrara they are mostly straight black with 7 heifers showing slight colour or brindle . Left open to join to a bull of your choice in spring these heifers will be an asset to any breeder herd. Parallel assessed with Matthew Noakes - 0409025613.
