Assessor Comments	Good line of PTIC Droughtmaster heifers from a well known commercial and stud herd. Weaned on Aldinga before being trucked to Barkala. Heifers have had plenty of work by experienced cattle people which shows in the cattle. This is a great opportunity to get your hands on a quality line of PTIC heifers from a well renowned Droughtmaster herd. Bred on Aldinga forest country, was very dry when moved to "Barkala" for joining. Have done really well and present in very good order. Regular vendors on AuctionsPlus and sell well. Vendor will clear at their expense. Two part baldy faces, 2 Charbray types & 1 with brindle markings.
