Assessor Comments	43 (2 Decks) of British & British Cross PTIC heifers. Heifers are in calf to VGQ Rosevale Bulls and are scanned 1-8 months in calf on the 20/05/2021. These 2nd calf heifers were purchased in October 2019 as weaners and grown out on good gidgee and mitchell grass country. Heifers show good bone and length with plenty of frame to grow out to be big cows with the heaviest heifer being 654 kg to average 487 kg curfewed. Heifers where returned to same paddock. Heifers are extremely quiet in yards and work well though pound, race and crush. A very good line of heifers that have plenty of time ahead of them to be long term breeders. They are quiet and well educated ready to take home calve down and rejoin to the bull off your choice. Please note delivery date as vendor has other commitments. *Vendor also has another lot in Eastern States Sale*
