Assessor Comments	Attention all restockers today we have to offer 11 Brahman PTIC Heifers to a well bred Angus Bull. The Heifers consist of 2 Greys and the remaining Heifers red. These Heifers presented well showing plenty of frame and growth. They will grow on to be great breeders. They have been part of a cell grazing program which required them to be handled daily. On assessment they averaged 382kg on delivery. Don't miss a great opportunity to secure yourself some young PTIC Heifers. Please note the Heifers are located in a Tick area and will require clearing prior to moving across the Tick Free line. This will be at the buyers expense.
