	These young breeders handled very well from the paddock through to walking out of the vet crush, there was a few cows that pushed and carried on in the race & crush however settled immediately once let go into herd.							
Handled With	Bikes							
Assessor Comments	Buyers here's 5 decks of one Brand all three year old heifers, there is one left to calve and those calves on the ground are growing well and averaged 95 kg at assessment. It was noticed several heifers cycling, they are all in good condition and are milking well. No dog bites or issues identified whilst being mustered and assessed. There is one heifer with a hgp triangle - the balance are free. One male and one heifer calf noticed to have minor infection in navel - not detrimental. One small grey heifer calf noticed to have a bent nose and clubbed hind n/s foot. This line of breeders are only being sold as the property has been sold, they are a very good line of what is best described as 'Composite' bred fertile young cows doing a great job on their calves. These heifers have grown out very well since purchasing in 2020, which is testament to their depth of breeding and composition. Here's a outstanding opportunity to buy a 1 brand line of cows and calves ready to join to your sires.
