Assessor Comments	On offer is a nice line of Angus cross cows with majority of them showing strongly back to the Angus breed. Cows and calves are in great condition contributed to the good season being experienced in the area. Cows have been running with an Angus bull. They were preg tested on 25th April to show 6 cows four months plus in term displaying red tail tags. One cow is dry without a calf and another dry tested in calf to give the offering of 21 cows and 19 calves. One cow was noted with a slight lump on near side jaw and another with a blue eye on the offside, shown in photos. Calves are unmarked except for the oldest male calf having been. They are exceptionally well handled cattle that were good to work with from paddock to crush. Please note specific delivery window required. Vendor has another lot in same sale. ** 1 dry cow scanned NDP at 15% less of sale price **
