Assessor Comments	These are a very reluctant dispersal sale due to change in farm operations. Cattle have been selected over the years to form a herd of breeders ideal for joining to a Speckle Park Bull achieving fast maturing weaners with high quality meat traits . Their progeny have not disappointed as seen in photo. these cows were purchased in 2019 from "Doctors Creek Speckle Park' as 2014 drop cows. **As seen in Photo of calves that were weaned at 5 months at assesment, the calves are sired by the bull that these cows are joined to, Blue Speckle Park Eagle BSP P07 has outstanding EBV'S with superior 200,400 & 600 day weight gains These cows were a pleasure to handle. Buyers please note there were 3 cows mouthed and 1 was missing a wing tooth, also on cow with large bag.
