Assessor Comments "Nimbo" has been sold and this is a genuine herd dispersal. A great line of aged Angus cows, that have all sound mouths. Cows have no freeze brand because vendor hadn't started to brand when these cows were heifers. These proven Angus Breeders have been an asset to the "Nimbo" herd and have produced quality calves year in year out and would rear another calf well given the right opportunity. PTIC to quality Reiland, Rennyalea & Arden Bulls to commence calving early July. Vendor has selected bulls on fertility, milk, growth & temperament. Note cows held in small holding paddock the night before assessing, 1 cow noted with old scar on side of jaw. An excellent opportunity to secure a line of well bred proven Angus breeders which would suit to calve down and split later. Please see vendors other age groups in same sale.
