	A nice live of heifers to assess. Odd heifer a touch runny under pressure and odd heifer slightly stirry in crush but settled back into mob nicely.

Assessor Comments	An excellent opportunity to secure a large line of genuine breeding cattle. Young heifers doing an excellent job on their calves. These heifers are a run out of a total of 60 on offer today. Originally bred at Tarcutta out of the well renowned Duncartin herd, these heifer were purchased PTIC with the intention of retaining yet due to season and cattle coming through, must be sold. An ideal article to retain with all their lives in front of them or to fatten both and trade. These heifers come with 30+ years of pure Hazeldean breeding. Presenting in strong, forward store condition, heifers are putting everything into their sappy calves. Heifer are bred to perform in tougher times and are very reliable. Will grow into profitable mature age of 600kgs if given the opportunity. Please note: A total of 60 heifers on offer to be sold in deck lots. Odd heifer with blue eye (not detrimental). Odd heifer with white flank. Calves are unmarked.
